Definition

Educational records are defined as any record (in handwriting, print, computer database or other medium) maintained by the school, or an agent of the school, which is directly related to a student with the following exceptions:

1. A personal record kept by a staff member, if it is kept in the personal possession of the individual who made the record, and information contained in the record has never been revealed or made available to any other person except the maker or his/her temporary substitute;

2. The records of an employee who is also a student, but whose employment is not contingent on the fact that he/she is a student. Only records used solely in relation to the individual's employment are excluded under the provision;
3. Records that contain information about the student only after he/she is no longer in attendance at the school, and the records do not relate to the person during the period of being a student.

Procedures to Inspect Institutional Records

Students and/or parents of a dependent student may inspect and review their educational records upon written request to the School President. The written request must identify the records the student wishes to inspect. The School President will make arrangements for access as soon as possible and notify the student and/or parent(s) of the time and place where the records may be inspected. In no case will the requested meeting be scheduled more than 30 days from the date of the request.

Correction of Educational Records

Students have the right to challenge the record for purposes of correcting or deleting any of the contents they believe are inaccurate, misleading, or in violation of their privacy rights. The following procedures are for requesting a correction of records:

1. A student must submit a written request to the School President requesting to amend a record. As part of the request, the student should identify the part of the record he/she is challenging and specify why he/she believes it to be inaccurate, misleading, or in violation of his/her privacy rights.
2. The School President and/or the Director of Education will review the written request and meet with the student. A decision will be made to retain, change, or delete the challenged data. Should the school decide not to amend the record the student will be advised of the right to a hearing to challenge the disputed information.
3. A copy of the challenge and/or a written explanation of the contents will then be included as part of the student's permanent record.

Right of School to Restrict Access

The school reserves the right to refuse the student the right to inspect the following records:

- The financial statement of the student's parent(s);
- Letters and statements of recommendations for which the student has waived his/her right of access;

- Those records that are excluded from the definition of educational records under the Family Educational Rights and Privacy Act.

Request for Copies

The student may request a copy of a record for which consent for release has been given. However, the school reserves the right to deny official transcripts and certificates if the student has an unpaid financial obligation to the school or there is an unresolved disciplinary action against the student.
